

# RAIL BOND DRILL

## ELECTRIC OR GAS POWER

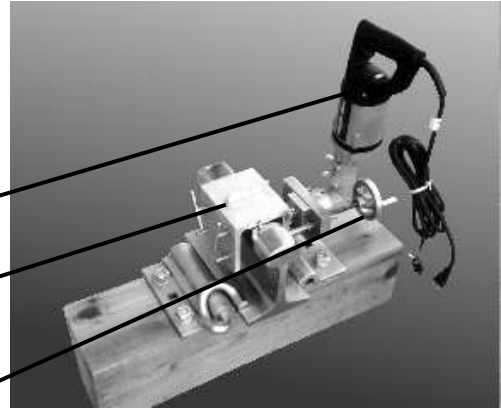

- Drills mounting holes for railbond applications
- Simple operation – lightweight construction
- Drill bits not included

### Electric Model

Porter-Cable 1.3 hp Unit  
Total Weight – 28 lbs

Bubble level insures  
perpendicular installation  
before drilling

Hand crank provides proper  
drill feed rate without the need  
for excessive force (optional  
ratchet drive available)

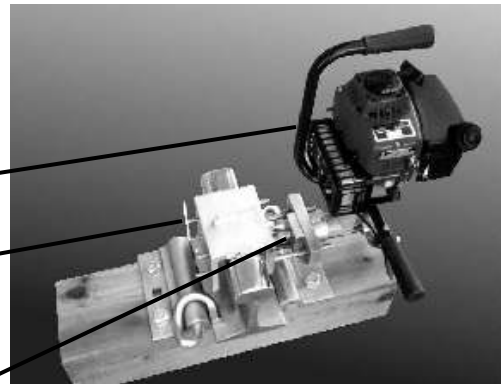

### Gasoline Model

Tecumseh 2.5 hp Unit  
Total Weight – 35 lbs

After initial set-up additional hole  
locations are very simple:  
Set unit on rail, adjust level,  
tighten T-handles, and drill

Standard drill chuck allows easy  
drill bit replacement to  
accommodate various sizes
